

World River Day, Sunday September 26, 2021

Secwépemc Contest

World River Day is A Celebration Of The World's Waterways.....

It highlights the many values of our rivers, strives to increase public awareness, and encourages the improved stewardships of all rivers around the world. Rivers in virtually every country face an array of threats and only our active involvement can ensure their health in the years ahead.

We would like to have a challenge where communities, families or individuals participate by demonstrating stewardship of our rivers. (4 categories)
